PREFACE

THIS part of the *Catalog of Copyright Entries* contains an alphabetical list under title of unpublished music registered in the Copyright Office from January 1, 1952 through June 30, 1952.

Arrangement.—There are two sections in this catalog. The first contains entries describing the musical compositions deposited. The description of each work contains as many of the items mentioned in the two following paragraphs as are applicable. The second section is an index to the names of all the composers, authors, claimants, etc., given in the entries in the first section.

Bibliographic Data.—The title is the first item in each description. When the piece is an excerpt, the title of the motion picture or other work from which it is a selection is included. A cross-reference is also made from the title of the whole work to the title of the excerpt. Names of the authors as they appear in the copy and application are given, following the designations "w" (words by), "m" (music by), "arr" (arranged by), etc. The fullest form of the name available is used, and real names, when known, are used in preference to nicknames or pseudonyms.

Copyright Data.—The statement concerning copyright registration begins with the symbol ©. When it is stated in the application that the claim is limited to a specific part of the work deposited (such as new words, arrangement of the music, etc.) this fact is included immediately after the copyright symbol. The names of the claimants as they appear in the application are next given. These are followed by the date on which the last of all the items required to complete registration (i. e., each of the following: application, copy and fee) was received in the Copyright Office, and by the registration number. Information in the application about earlier versions of the work is given in brief form at the end of the entry.

When the authors and claimants are the same, data about authorship and copyright are combined in one statement to avoid repetition. An employer in the case of a work made for hire who is named in the application is so designated in the entry, with the names of his employees when given.

Deposit of Copies.—In the case of every copyright entry listed in this part of the *Catalog of Copyright Entries*, the deposit of copy as required by section 12 of Title 17 of the United States Code has been made.

Authority.—The *Catalog of Copyright Entries* is published by authority of sections 210 and 211 of Title 17 of the United States Code. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Organization of the Catalog.—This issue of the *Catalog of Copyright Entries* is part of Volume 6 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in section 5 of Title 17 of the United States Code. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the "Table of Organization," which faces the title page in this catalog. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. The symbol R does not represent a class designated in the copyright law, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under symbols other than those listed for the particular part if the subject matter or type of material of these registrations is similar to that generally included.

Orders.—Orders for all parts of the *Catalog of Copyright Entries* should be sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as a subscription for a single year or to continue until further notice, or (2) as an order for individual issues. All orders should state clearly the title of the *Catalog* part and the inclusive dates of the issues wanted. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the "Table of Organization." The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* may be secured on a subscription basis for $20 a year.

Inquiries.—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*
